VISION & MISSION

Vision

To be a leader in providing clean energy solutions to build sustainable world for future generations.

Mission

To replace fossil fuel with clean renewable energy.

**Stergy
Cleantech** Pvt.Ltd.

OUR JOURNEY TO EXCELLENCE

Founded in 2017. Stergy emerged with a passion for transforming the energy landscape and embracing the infinite power of the sun.

2017

Empaneled with Anert in 2018. Our dedication to quality earned us recognition from the Agency for Non conventional Energy and Rural Technology (Anert), strengthening our resolve to serve you better.

2018

Empaneled with KSEB in 2022. In just a few short years, we further solidified our presence by being empaneled with Kerala State Electricity Board (KSEB), reinforcing our commitment to excellence.

2022

Quality of Service

Our relentless pursuit of service excellence sets us apart. We build strong connections with our customers and clients to ensure a seamless operation of the systems we install. Your satisfaction is our top priority.

Timely Installation

We understand the value of your time and promise to deliver on our commitments. Before commencing any installation, we provide you with a clear timeline, and rest assured, we never exceed it.

Periodic Maintenance Reminders

Ensuring the optimal performance of your solar system is our responsibility. Our team of experts proactively sends periodic maintenance reminders, so you can enjoy uninterrupted solar energy at its best.

WHY CHOOSE US

Join the solar revolution and be part of a cleaner, greener, and more sustainable tomorrow. With Stergy as your solar partner, you take charge of your energy and embrace a brighter future for generations to come.

CUSTOMER TESTIMONIALS

”

They have done an excellent job as per my requirement. They got me the panels and inverter which I demanded. Workmanship is excellent. Proper and prompt followup and keeping me updated as to what is the current status. I got in touch with Stergy cleantech online. Until my work was completed I couldn't meet them face to face due to Covid travel constraints. My work was done during Covid time. Even during that time they were able to provide me service by following proper Covid protocols. Really happy and satisfied with their work and professionalism.

CUSTOMER TESTIMONIALS

I did my solar roof top installation with Stergy. Had a wonderful experience with them all through the process - from planning to installation to after sales support. I have a very functional and effective solar rooftop setup in place now. They are very professional and courteous in their approach. Also diligent in dealing with govt authorities for approval and other matters. We are a happy customer and will recommend Stergy to anyone looking for solar installations

CUSTOMER TESTIMONIALS

”

Stergy Cleantech installed a 5kw system at home. I was having a sloping roof and it was tricky to do the installation. They did it well. I am happy with their work.
